

Survey

People with Disabilities in the Church

1. Are there people with disabilities participating in your church?

2. What patterns do you notice about people with disabilities who are already a part of your church?
Consider things like age, marital status, family dynamics, income, and length of time at the church.

3. Are the people with disabilities “fully engaged” at your church? If not, list the ways in which they are not engaged.

4. Are there people with disabilities who were a part of your church that no longer are? Why are they no longer at your church?
